GO BEYOND EVOLUTION. GO FOR REVOLUTION. GO FOR **EUROCIS** 2024.

Retail Technology. The word development is actually too slow for what is happening here. Too slow for the dynamics of innovation, the new challenges and the corresponding solutions.

EuroCIS is the trade fair that does justice to this dynamic, this permanent high-tech revolution. And which offers it an international platform. Year after year, with constantly growing success. And always with the most important hot topics that currently dominate the retail sector.

Topicality plus relevance plus excellence – that is EuroCIS 2024.

GO BEYOND TRENDS. GO FOR **HOT TOPICS.**

EuroCIS 2024 reflects the dynamic technological development in retail like no other trade fair.

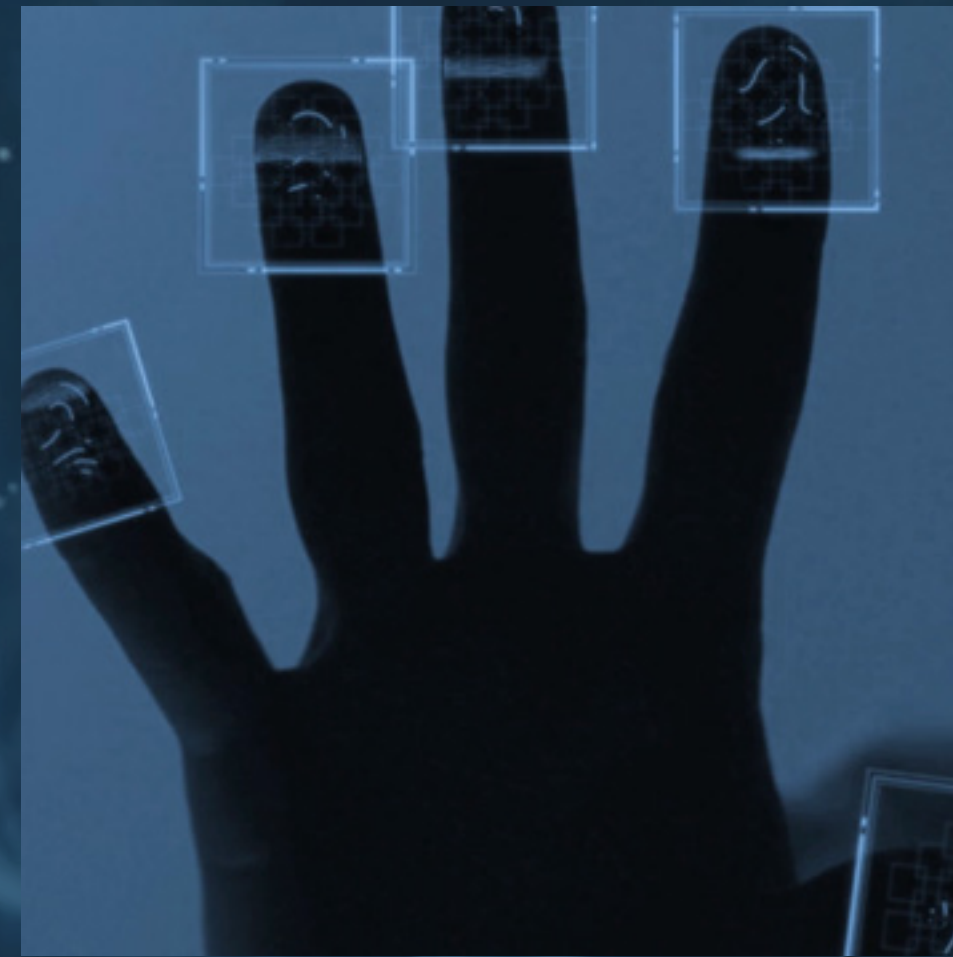

It presents retail technology in all its forms and functions more comprehensively than any other trade fair.

**Go beyond data.
Go for AI & Machine Learning.**

Data use requires data analysis requires AI & machine learning. You only need one visit to EuroCIS 2024 for all this! It's that easy to find the right support for this important technological challenge.

GO BEYOND CITY TRIPS. GO FOR DÜSSELDORF.

Düsseldorf is more than just any city break destination. The metropolis on the Rhine is one of the places with the highest quality of life in Germany. Düsseldorf means international flair and local down-to-earthness, global players and local start-ups, sophisticated culture and hip trends.

All this and its central location in Europe make Düsseldorf an excellent address for trade fairs. With excellent transport connections: a dense motorway network and a main railway station with connections to all neighbouring countries. Plus Düsseldorf Airport: flights from over 200 destinations and with over 70 airlines. Germany's third-largest airport is located right on the city's doorstep – in the immediate vicinity of the EuroCIS 2024 exhibition centre.
